**PBI Reveals New Brand Identity with Redesigned Logo and Website**

Charlotte, NC – April 5, 2021

PBI Performance Products, producers of high-performance PBI<sup>®</sup> fiber, announced today the launch of its new logo and website. These changes come at a time when the company is evolving its brand identity while expanding its global reach.

“PBI is a unique molecule which is finding new end uses by solving critical issues in personal protection, energy, hi-tech manufacturing, and water purification. Our business has grown and evolved over the last 30 years and we continue innovate with solutions for a safer tomorrow” Says Bill Lawson, President.

“We are really excited to launch the new identity, as part of the ongoing evolution of our business. We have transformed our branding to reflect who we are today and our dynamic future tomorrow.” says Catalina Ciobanu, Marketing Director.

Designed to work effortlessly across digital and physical channels, as a stand-alone and ingredient brand, the new logo evokes movement and velocity, while maintaining the integrity of the PBI brand equity and color cues, valuable and recognizable assets built throughout the years.

To highlight the new logo, PBI has introduced a redesigned website. The primary goal during the redesign process was to create a more valuable, user-centric and responsive resource across all platforms and devices. With feedback from our customers and stakeholders, we wanted to focus on making it easier for our customers
